(3) Contact with TIHTC by phone +886-2-2276-5566 #2085/#2087/#2088/#2091

Introduction

The Taiwan International Healthcare Training Center (TIHTC) was established on August 29, 2002 by the Taipei Hospital, Ministry of Health and Welfare. The Center offers training and exchange programs for medical professionals from around the world to train in Taiwan.

Objective

International Acupuncture Traditional Medicine (ATM) has become a popular treatment across the world. To promote traditional Chinese medicine and to give international medical practitioners a chance to learn Chinese medicine, TIHTC designed a two-week training course that includes the fundamental academic know-how and the practice of traditional Chinese medicine. Attendees of the training course will also get to visit some of the largest Chinese herbal pharmaceutical companies in Taiwan. By the end of the course, attendees will gain further understanding in traditional Chinese medicine through differentiating herbs, its medicinal values and acupuncture. Moreover, attendees can utilize weekends to participate in the visitations to cultural sights and medical institutions to learn more about Taiwan.
