EDITORIAL

I am pleased to release the 7th revised-edition of the Statistical Digest. As one of the Department of Statistics' mandate, the publication is intended for use as an essential reference tool for policy makers and economists.

The data compiled in the 2019 Statistic Digest is used to evaluate indicators to track, monitor and assess the island's progress. The Digest is designed for convenient reference; and contains quick facts and graphs. The aim is to supplement section of tables by identifying key facts and trends. The graphs serve as a quick way to determine trends in a visually appealing way.

The sections captured in the digest include but not limited to the number of construction, importation of vehicles, movement of cargo and people, agricultural production and reported crimes.

Additional information include demographics, election results and rainfall. Historical events dating 1493 to present and notable local events form part of the dossier.

For those of you who have appreciated our previous editions, it is my pleasure as the Editor to present this year's publication, and to keep in mind the words once said by John Turkey, "The greatest value of a picture is when it forces us to notice what we never expected to see."

Special thanks is extended to our private and public partners who collected, collated, disseminated, analysed and forward the data use to assist in this year's publication. We look forward to the continual harmonization between, other departments of government, the private sector of the economy and our department.

ADMINISTRATION

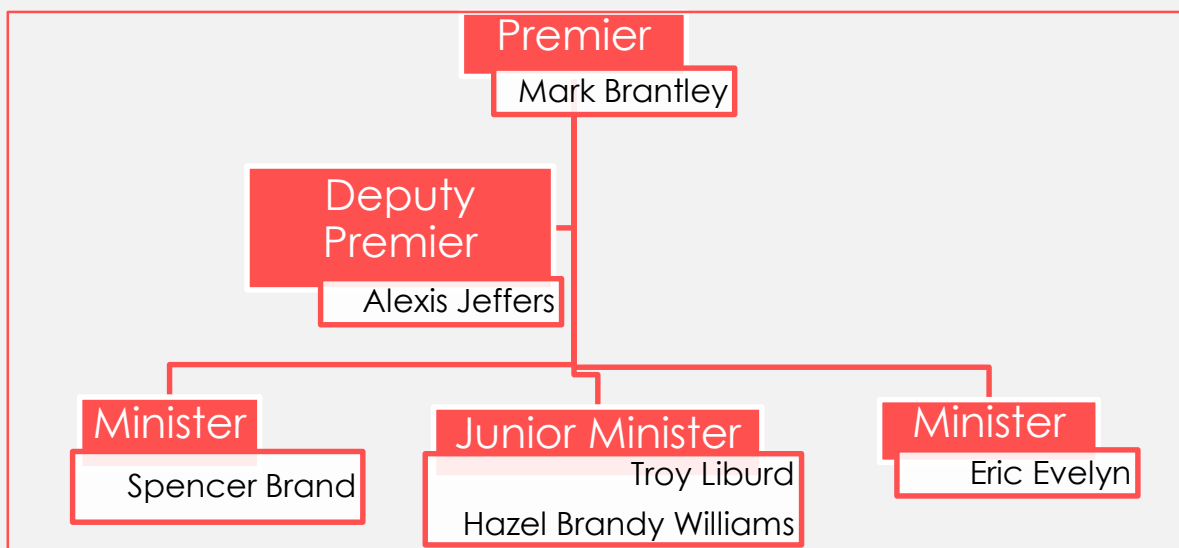

STRUCTURE OF THE NEVIS ISLAND ADMINISTRATION

Modeled off the West-Minister System with a Constitution as the Supreme Law, the Federation of St. Christopher and Nevis has a democratically elected government with a unicameral structure of parliament. The uniqueness of the 1983 Constitution Order of St. Christopher and Nevis, gives credence for autonomy for the island of Nevis.

With five (5) single-member constituencies and a majority rule voting system for a period of five years term of assembly, the constitution allows for a composition of the Nevis Island Assembly. As such, there are eight (8) parliamentary members who are elected and/or nominated to serve.

As a constitutional monarchy within the Commonwealth of Nations, the Federation recognizes Queen Elizabeth 11 (British Monarch) or her successor as the titular head of government. The Monarch is represented on the island of Nevis by a Deputy Governor General appointed by the Governor General (titular head) of the Federation, who is constitutionally responsible for the government of both islands.

Since the realization of Independence in 1983, the island of Nevis is governed by an administrative division known as the Nevis Island Administration.

*Organizational chart displaying the composition of the Nevis Island Administration

The Deputy Governor General is responsible for delivering the throne speech at the first sitting of the assembly following an election process. Presently, Her Honour, Mrs. Hyleta Liburd is the Deputy Governor General. She was sworn into office on August 31st, 2018. She continues to hold the position as at the end of 2019.
